Frontend Developer

As a passionate and curious Junior Front-End Developer, I specialize in creating scalable, intuitive, and ergonomic web pages using component-based architectures. With a strong understanding of JavaScript and TypeScript and their ecosystem, I adhere to industry best practices such as Test-Driven Development (TDD) to ensure high-quality code through automated tests. I follow a Mobile-First approach and utilize Agile Scrum methodology to collaborate effectively within teams. Familiar with Domain-Driven Design (DDD), I focus on delivering solutions that are not only functional but also maintainable and user-centric. My goal is to continue growing in the field by embracing new technologies and methodologies to enhance my development process.

WORK EXPERIENCE

GRAPHICS SYSTEM SA • Douala, Bonaberie, Grand Hangar **11/2024 – Present**

Established in 1990, it is a leading industrial printing company in Cameroon, offering comprehensive visual communication solutions. The company specializes in various printing services, including offset, screen printing, digital printing, and signage. With over three decades of experience, Graphics System SA has built a reputation for delivering high-quality products and services to its clients. In addition to its core printing services, Graphics System SA has diversified its offerings by partnering with CANAL+ in 2010 to distribute television services. To enhance customer experience, the company developed the FUJISAT mobile application, enabling users to manage and monitor their CANAL+ subscriptions efficiently.

React Junior Frontend Developer • Full-time

A mon compte Douala, Cameroun • Douala, Cameroun **06/2024 – 11/2025**

Freelance Junior Frontend Developer • Freelancer

As a Freelance Junior Frontend Developer, I specialize in designing and developing dynamic, user-friendly web applications tailored to clients' unique requirements. I leverage the Vue.js framework to deliver scalable and responsive solutions that enhance user experiences.

LAO SARL Bassong, Douala, Cameroon • Douala, Cameroon **11/2022 – 06/2024**

Frontend developer • Full-time

As a **Junior Frontend Developer** at **LAO SARL**, I developed and maintained responsive web interfaces using **Vue.js**, **TypeScript**, **Vitest**, Cypress, translating UI/UX designs into interactive components while ensuring seamless integration with **RESTful APIs**. I test and optimized application performance, reduced website load times, enhancing scalability and maintainability. Collaborating with cross-functional teams, I utilized tools like **Git**, **GitHub**, **Visual Studio Code**, **Jira**, and **Confluence**, delivering user stories.
